PRMT-SECTION

Re: RCRA Liability Assurance
EPA I.D. Number KSD007246846

Dear Mr. Trombold:

Our records indicate your firm's sudden accidental occurrence liability insurance coverage expires on October 17, 1990.

40 CFR 264.147 and 40 CFR 265.147 both require continuous liability assurance until closure of the facility is certified by the operator and by an independent registered professional engineer.

The regulations in effect in Kansas provide seven ways to demonstrate liability assurance which are listed below.

1. Certificate of insurance
2. Insurance endorsement
3. Financial test for liability coverage
4. Guarantee for liability coverage
5. Letter of credit for liability coverage
6. Surety bond for liability coverage
7. Trust fund for liability coverage

40 CFR 264.147 and 40 CFR 265.147 discuss the procedures for using each of these instruments; 40 CFR 264.151 contains the required wording. Please note that as the Kansas Department of Health and Environment (KDHE) is now administering the financial and liability portion of RCRA, these documents must address the Department. Therefore, please submit all documents to the Secretary of the KDHE instead of the EPA Regional Administrator, and change all references from the "EPA" to the "KDHE".
